#### About YVA:

Your Vision Achieved, LLC is an outpatient practice in the south metro that focuses on the family system. We believe that if we can help strengthen families, then children grow up to be secure and loving. We do this by doing good work, hiring exceptional staff, specialized delivery of care, and taking a systematic approach. We provide therapy services to individuals (ages 7-60), couples, and families. We also partner with Dakota county to provide an adolescent diversion program for adolescents and their families. Our therapists have multiple specialties and provide care in multiple therapeutic modalities. They are passionate about the care they provide.

For a long time, mental health providers have been underpaid. Our field is finally being recognized for the work that we do as it requires intelligence, dedication, and self-awareness. It is important for our therapists to be paid well for the challenging work environment. Compensation and collaboration allow our therapists to do their best work with clients and be fulfilled so they can have positive family lives. We also are transparent and share information with the employees as we stay on trend with the rest of the mental health field.
